Ride-on Range 2007/2008

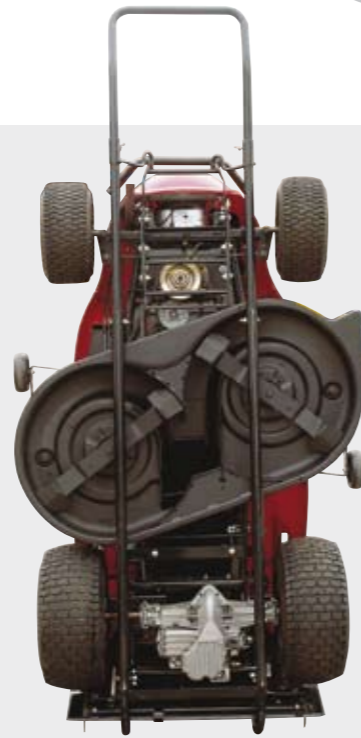

To get the most out of the AL-KO Powerline ride-on, a range of accessories are available.

The grass deflector enables the ride-on to be used without the catcher while the mulch kits allow the rear catcher models to be converted into an eco-friendly mulching mower.

The service stand is a unique feature of the rear catcher ride-on-range and it makes servicing easy.

A further option is the handy trailer hitch.

● State of the art safety features

● Convenient mulching options

AL-KO PowerLine T18-102HDS BIO-COMBI Side-discharge mower

AL-KO PowerLine Rear Catcher Range Consists of 2 models

The workhorse of the AL-KO range is the T18-102HDS BIO-COMBI side discharge ride-on mower. This features a powerful 17.5 HP Briggs & Stratton motor and comes standard with the exclusive BIO-COMBI system. This allows you to change from mow to mulch without the need to leave the driver's seat.

No blade change is necessary as the combination blade is specially designed to optimise mowing and mulching. It's extremely easy to use - just simply move the lever to either mulch or mow.

Model	T18-102HDS
Engine	Briggs & Stratton Intek OHV (17.5 HP AVS)
Transmission	Hand Hydrostat
Motor Start	Electronic Start
Battery	17 AH / 12 V

Catcher Volume	No catcher
Mechanism to empty catcher	None
Electronic Dashboard	No
Front Wheel	13 x 6.5-6
Rear Wheel	18 x 8.5-8
Headlights	Xenon 6W
Warranty	24 months

With the introduction of AL-KO's state of the art foot hydro transmission, mowing has never been easier. The all new foot hydro is ideal for guiding your catcher mower around trees and curved garden beds. The innovative heel toe foot pedals ensure that you can navigate your ride on mower both forwards and backwards at varying speeds with maximum ease.

Because you'll want to have a neat and tidy garden once you've finished mowing, AL-KO has designed a range of catcher models that utilise a specialised turbo cutting system for optimum mowing and catching efficiency. This means you're guaranteed no unsightly clumps of grass scattered throughout your freshly mown lawn.

The large 300 litre catcher is fitted with a convenient alarm that alerts the driver when the catcher is full, and with gas strut assisted release in T18-102HD model or electric assisted release in T20-102HDE model, emptying the catcher has never been easier.

The AL-KO range has been rated as the "best catching Ride-On Mower" available in the Australian market by specialist Ride-On Mower dealers.

A mulching kit is available which will allow convenient conversion of Ride-On Mower catcher into a mulcher mower.
